

Android Engineer (+2 Year Exp, Upto \$1800)

[Apply Now](#)

Company: Humax Vietnam

Location: Hanoi

Category: architecture-and-engineering

General Description

We are seeking a skilled and experienced Android Developer to join our team. As an Android Developer, you will be responsible for designing and building advanced applications for the Android platform, with a particular focus on Android Automotive. You will work on cutting-edge projects related to in-vehicle infotainment, vehicle control, and connectivity, including Android Auto and CarPlay integration.

Essential Duties and Responsibilities

Design and develop innovative and user-friendly Android applications for automotive platforms such as Android Automotive.

Collaborate with cross-functional teams, including product managers, designers, and backend developers, to understand requirements and translate them into high-quality Android applications.

Ensure the performance, efficiency, and scalability of Android applications through rigorous testing, optimization, and code reviews.

Stay up-to-date with the latest trends and technologies in the Android ecosystem and apply them to enhance our applications.

Work on integrating in-vehicle infotainment systems and vehicle control features, leveraging Android platform capabilities.

Implement connectivity solutions for Android Auto and CarPlay, enabling seamless integration

between mobile devices and vehicles.
