

Medical Manager

[Apply Now](#)

Company: PYMEPHARCO JOINT STOCK COMPANY

Location: Vietnam

Category: other-general

Key Responsibilities:

Medical Strategy Development:

Collaborate with cross-functional teams to develop and implement the medical strategy. Stay updated with the latest clinical data and research to inform decision-making.

Medical Information and Communication:

Develop and review scientific content for medical materials, including slide decks, literature, and product monographs. Respond to medical inquiries from healthcare professionals and ensure accurate and timely dissemination of medical information.

Clinical Research Oversight:

Assist in the design and execution of clinical trials. Collaborate with clinical operations to ensure the quality of clinical research and the adherence to regulatory and ethical standards.

Stakeholder Engagement:

Build and maintain relationships with Key Opinion Leaders (KOLs) in the respective therapeutic area. Represent the organization in scientific conferences, seminars, and other medical events.

Training and Development:

Provide medical training to internal teams, including sales and marketing. Stay updated with continuous medical education and ensure team members are informed of the latest

developments in the field.

Regulatory and Compliance:

Ensure all medical activities comply with local, national, and international regulations. Collaborate with the regulatory affairs team to support product registrations and label updates.

Cross-functional Collaboration:

Partner with marketing, sales, and other departments to ensure alignment of medical strategy with business objectives. Contribute to product development teams by providing medical expertise.

Qualifications:

Medical degree (M.D.) or equivalent. In some cases, a PhD in a relevant field may be accepted.

Clinical or research experience in the therapeutic area is preferred.

Knowledge of the pharmaceutical industry, including the drug development process and regulatory requirements.

Strong analytical, organizational, and communication skills.

Ability to work cross-functionally and lead initiatives.

Proficient in scientific literature analysis and presentation.
