

## NPI Engineer

[Apply Now](#)

Company: Adecco

Location: Vietnam

Category: architecture-and-engineering

### Job summary

A new job opportunity has just arisen in a global consumer electronics manufacturer based around Ho Chi Minh city for **local Vietnamese** and **expats** who are willing to relocate to VN.

### Job Responsibilities

Manage an end-to-end NPI Projects

Manage the progress of documentation release, material kit status, and tool/jig availability for builds, as well as oversee packaging design and the study and setup of new product building processes.

Develop process flows and conduct FMEA for new NPIs.

Monitor and coordinate manufacturing processes such as from beginning to assembly, and testing.

Collaborate with R&D to address issues and provide advice on solutions during the build, subsequently incorporating findings into DFM and ensuring resolution.

Provide upper-level management with regular progress reports on development and rollout.

Participate in corrective action requests, root cause analysis, and problem-solving teams addressing project-related issues.

Utilize statistical techniques (SPC, Gauge R & R) and demonstrate experience with projects

in an APQP/PPAP environment (preferred, but not essential).

Undertake any other assigned duties.

### **Experience requirements**

Fluency in English.

At least 3 years of experience in NPI or Production roles in electronics manufacturing.

Experience in PCBA troubleshooting & measuring.

Experience in product/process development, verification, and validation techniques and tools.

Strong interpersonal and communication skills, communicating accurately, clearly, and directly in both verbal and written forms internally and externally.

Practical knowledge of APQP, PPAP, FMEA, change management, and strong project management.

Proficient in analysis tools such as Mini tab, Cpk, GR&R, SPC.

Office Skills: PowerPoint, Excel, Microsoft Project.
