

## Sr AWS Cloud Backend Engineer

[Apply Now](#)

Company: Resola Inc

Location: Vietnam

Category: computer-and-mathematical

Resola Inc, a leading provider of innovative AI solutions for marketing and advertising, is seeking a Sr Cloud Backend Engineer to join their dynamic team. This is an exciting opportunity to work in a cutting-edge environment, leveraging AI technology to create user-friendly solutions and improve business operations. As a Sr Cloud Backend Engineer, you will play a vital role in designing and developing scalable and reliable backend systems that support Resola's AI-powered marketing products and services.

With a strong focus on marketing digital transformation, Resola is at the forefront of utilizing deep learning and natural language processing to enhance customer engagement and conversion rates. As a company that values continuous innovation, Resola offers a supportive work culture and ample opportunities for personal and professional growth.

### Responsibilities

Develop and maintain scalable and reliable backend systems for Resola's AI-powered marketing products and services.

Collaborate with cross-functional teams to design and implement features that enhance the performance and functionality of Resola's marketing solutions.

Optimize backend infrastructure and processes to ensure high availability and scalability.

Conduct code reviews and provide constructive feedback to team members.

Collaborate with data scientists and machine learning engineers to integrate AI algorithms into backend systems.

Identify and resolve performance bottlenecks and security vulnerabilities in the backend infrastructure.

Stay updated with the latest industry trends and technologies to continuously improve Resola's backend systems.

## **Requirements**

Bachelor's or Master's degree in Computer Science or a related field.

Proven experience developing scalable and reliable backend systems using cloud technologies.

Strong programming skills in languages like Python, Javascript, Java, or Go.

Experience with cloud platforms like AWS, Google Cloud, or Azure.

Familiarity with containerization technologies like Docker and Kubernetes.

Knowledge of database technologies such as SQL and NoSQL.

Understanding of RESTful API design principles.

Excellent problem-solving and debugging skills.

Strong communication and collaboration skills.

Ability to work effectively in a fast-paced and highly dynamic environment.

## **Benefits**

Paid Time Off

Work From Home

Performance Bonus
